

June 18, 2019

The Honorable Donald Norcross
Vice-Chair, Bipartisan Addiction Task Force
2437 Rayburn House Office Building
Washington, DC 20515

Dear Congressman Norcross:

The Mental Health Liaison Group (MHLG)- a coalition of national organizations representing consumers, family members, mental health and addiction providers, advocates, and other stakeholders- is writing to express our strong support for the Parity Enforcement Act (H.R. 2848), which would give the U.S. Department of Labor (USDOL) a critical tool to ensure health plan compliance with the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (Federal Parity Act).

Under current law, USDOL lacks the ability to assess civil monetary penalties against health issuers and plan sponsors for violations of the Federal Parity Act, which requires insurers to cover illnesses of the brain, such as depression or opioid use disorder, no more restrictively than illnesses of the body, such as diabetes or cancer. Without this power, USDOL can only require plans to reimburse consumers for wrongly denied coverage of care that was nevertheless provided. Such meager authority is not enough and is unlikely to change plans' coverage practices. USDOL must finally be able to hold plan issuers and sponsors accountable for illegal denials of mental health and substance use coverage more than 10 years after enactment of the Federal Parity Act.

H.R. 2848 corrects this major gap in USDOL's oversight authority by amending the Employee Retirement Income Security Act (ERISA) to give USDOL the authority to levy civil monetary penalties against health insurers and plan sponsors for parity violations. The provisions are identical to USDOL's existing civil monetary penalty authority for violations of the Genetic Information Non-Discrimination Act. H.R. 2848 also includes safe harbor provisions to protect issuers and sponsors that are exercising "reasonable diligence" to comply with the Parity Act and that correct violations within 30 days of becoming known (or would have been known with reasonable diligence).

The need to give USDOL this authority for parity violations is widely recognized. President Trump's Commission on Combating Drug Addiction and the Opioid Crisis recommended providing this authority¹, as did President Obama's Mental Health

¹ Recommendation 35 of The President's Commission on Combating Drug Addiction and the Opioid Crisis, November 2017,

and Substance Use Disorders Parity Task Force.² In fact, Governor Chris Christie, chair of the Commission, stated that the authority is “absolutely necessary” and that the Commission “unequivocally” supported Congressional action to give USDOL the authority to issue penalties.³ Secretary Alexander Acosta has also expressed his support for USDOL having this authority on several occasions, including most recently on May 1, 2019 when testifying before the House Education and Labor Committee.⁴

The MHLG thanks you for introducing this critical legislation that will increase compliance with the Federal Parity Act and, ultimately, increase access to life-saving mental health and substance use disorder care.

Sincerely,

2020 Mom
